User reviews

That's what people say about Sort Pictures possibilities:"I had several hard drives full of different picture cameras in the different years. I am picturejournalist and travel around the world with my picture cameras. In the past all pictures were made on picturegraphic films and are stored, being printed on the paper. Today I use digital picture cameras with high resolution, such as Nikon TX Extra. I stored all my pictures on my notebook and several mobile hard drives. Finally, all pictures mixed up and I even could not find pictures from my last trip to Burma. I even did not know what to do. But my colleague advised me to use Sort Pictures. I installed it and it sorted all pictures, that I had directly as I wanted (by camera model and date, when picture was made). I even did not supposed, that such clever picture organizers exist. Sort Pictures saved very many of my time - all my pictures are now in the ideal order. Sort Pictures - is a program, which really helps people to sort their pictures easily."
